

Part No.: 01996 Busbar clamp terminal

For 5 mm and 10 mm thick busbars, for overlapping lengthwise or crosswise connection

System :

60mm-System classic

Standards :

IEC / EN 60439-1

Mechanical Data :

Width x Height x Depth (mm): 40 x 45 x 25 Weight (g): 149 terminal space length 25 mm width 20 mm height 5 - 20 mm

Material Characteristics :

Terminal body:

brass, nickel

Contacts:

direct contact connection with busbar

Screw :

slotted hexagon-head screw, galvanized, chromized

Remarks :

Can be used to clamp busbars, solid and flexible flat conductors.

Wöhner reserves the right to make modifications to its components, as the result of developments and technical advances.
